DOMINATOR®

AUTO-LOCK PROTECTION

ENHANCED SECURITY FOR THE THINGS THAT ARE PRECIOUS TO YOU

In today's world, protecting your home has never been more important.

As the largest door in the home, the garage door plays an important role in protecting what's valuable to you. So in response to a growing demand for extra security and convenience, we have released the Dominator Auto-Lock.

HOW IT WORKS

This smart keyless technology allows you to lock your garage door every time you close it using nothing but your regular remote control. The lock more than doubles the force required at the lock point to lift the door from a closed position, helping protect your home and loved ones*.

Auto-Lock is available as an optional extra on all Dominator sectional garage door and opener packages. (Ask your Dominator representative for details).

*Based on a door using an engaged automatic opener
